EDUCATION

BITMAKER LABS
Web Dev Immersive
Jan 2015 - Mar 2015

Full-time immersive web development program focusing on the Ruby on Rails framework, as well as front end languages such as HTML, CSS and JavaScript.

WORK

SR FRONT END
UX DEVELOPER
Carlton One Engagement
Richmond Hill ON
Nov 2017 - Present

Brought on board to lead development on the new in-house UX team at Carlton One Engagement, a leader in global recognition, incentive, loyalty and rewards program software solutions. Our team was created to handle all design and front end development needs, company wide. From basic things like dashboards, email campaigns, landing pages to much larger projects such as leading the planning and development of moving our legacy products, P2M and GRS to Vue.js.

DEVELOPER
Innocean Worldwide
Toronto ON
Sept 2016 - Oct 2017

Asked to come join the newly structured and rapidly growing Innocean Worldwide digital production team here in Toronto. Working with prestigious clients Kia and Hyundai, our team handling the majority of national advertising and corporate development needs. Using the standard modern development tools like React and Node, our team tackles demanding work and very fast paced timelines to ensure clients are satisfied and deadlines are met.

JR DEVELOPER
KBS
Toronto ON
Nov 2015 - Sept 2016

Building websites and web-ready HTML5 animated banners for high-end clients like BMO, Vanguard, Church & Dwight, and BierMarkt. Using many modern tools such as Adobe Animate CC, Silverstripe, JIRA, Github and Photoshop/Illustrator. As well as hand-coded HTML5, CSS3 (animations), JavaScript and PHP to create real-world products in a demanding setting.

FREELANCE
DEVELOPER
Red Urban
Toronto ON
Aug 2015 - Nov 2015

Contracted by Red Urban's digital department to construct HTML5 animated web banners, working remotely. Using Google Web Designer (a new skill self-taught for this contract) and Photoshop, IAB compliant banners were delivered under tight agency deadlines to the satisfaction of the production coordinators and clients such as Purina, Subaru and Porsche.

FREELANCE
DEVELOPER
towards.info
Toronto ON
May - July 2015

Worked closely with Towards founder/designer to bring to life his vision of the new towards.info. Created from PSD references, the site is built with HTML, CSS, JavaScript, and Bootstrap. Fully responsive via the use of media queries.
